Hallelujah Junction Wildlife Area Land Management Plan

Table of Contents	i
List of Figures.....	iii
List of Tables	iii
Acknowledgements.....	iv
I. INTRODUCTION.....	I-1
II. PROPERTY DESCRIPTION	II-1
A. Geographical Setting	II-2
B. Property Boundaries.....	II-4
1. Adjacent Land Use	II-7
2. Easements and Rights of Way.....	II-7
C. Geomorphology, Climate and Water	II-9
1. Geology and Soils	II-9
2. Hydrology	II-15
3. Climate	II-17
4. Water Rights	II-18
D. Cultural History	II-21
1. Land Use	II-21
2. Known Cultural Resources.....	II-28
3. Existing Structures.....	II-31
III. HABITAT AND SPECIES DESCRIPTIONS.....	III-1
A. Flora: Vegetation Communities, Habitats and Plant Species	III-2
B. Fauna: Animal Species.....	III-13
C. Endangered, Threatened and Rare Species.....	III-17
1. Special Status Plant Species	III-17
2. Special Status Wildlife	III-23
IV. MANAGEMENT GOALS	IV-1
A. Definitions of Terms Used in This Plan.....	IV-2
1. Elements	IV-2
2. Goals and Objectives.....	IV-2
3. Tasks and Adaptive Management Strategies	IV-3
B. Biological Elements	IV-4
1. Loyalton-Truckee Deer Herd Element.....	IV-6
2. Sagebrush Scrub Habitat Element	IV-8
3. Juniper Woodland Habitat Element	IV-10
4. Mountain Mahogany Scrub Habitat Element	IV-12
5. Jeffery Pine Habitat Element.....	IV-14
6. Riparian/Spring Habitat Element	IV-15
7. Meadow Habitat Element.....	IV-18
8. Recent Burns/Early Successional Habitat Element.....	IV-20

C. Biological Monitoring Elements.....	IV-23
1. Baseline Data Collection Element	IV-24
2. Long-Term Monitoring Element	IV-27
3. Regional Habitat Conservation Planning Element	IV-30
D. Public Use Elements	IV-33
1. Public Access Information and Education Element.....	IV-37
2. Hunting Element	IV-40
3. Wildlife Viewing and Nature Observation Element.....	IV-41
4. Scientific Research Element.....	IV-43
E. Facility Maintenance Elements.....	IV-46
1. Health and Safety Element.....	IV-47
2. Fire Management Element.....	IV-48
3. Vegetation Management and Grazing Element	IV-52
4. Vector Control Element.....	IV-55
5. Water Management Element.....	IV-56
6. Access Roads, Parking and Trails Element	IV-58
7. Signage, Fencing and Gates Element	IV-58
8. Structures Element	IV-60
9. Equipment Element.....	IV-60
F. Cultural Resource Elements.....	IV-62
1. Cultural Resource Protection Element	IV-62
2. Native American Access Element.....	IV-64
G. Administration Elements	IV-65
1. Recordkeeping Element	IV-65
2. Resource Coordination Element.....	IV-66
V. OPERATIONS AND MAINTENANCE SUMMARY	V-1
A. Staffing and Equipment Needs.....	V-2
1. Personnel NeedsV-2
2. Capital Equipment NeedsV-3
B. "Step Down" Activities	V-4
1. Easement Research and Parcel Map Follow-UpV-4
2. Water Rights Research and Follow-Up.....	.V-4
3. Cultural Resource Treatment PlanV-5
4. Fire Management PlanV-5
5. Fire Restoration and Monitoring Plan.....	.V-5
6. Range Management Plan.....	.V-5
C. Funding Sources	V-6
1. Operations and Mainenance Budget.....	.V-6
2. Restoration, Enhancement and Capital Improvement ResourcesV-6
D. Operations and Maintenance Tasks	V-7
E. Future Revisions to This Plan	V-28
VI. REFERENCES.....	VI-1
VII. DOCUMENT PREPARATION	VII-1

APPENDICES

- A: Easements, HJWA
- B: Climate Data, Stead, Nevada
- C: Water Rights, HJWA
- D: Plant Inventory, HJWA
- E: Wildlife Inventory, HJWA
- F: Invasive Non-Native (Weed) Management Plan for the HJWA
- G: CEQA Negative Declaration/Initial Study
- H: Range Management Guidelines
- I: Online Data Resources for Biological Monitoring and Adaptive Management (Hyperlinked)
- J: Regional Habitat Conservation Planning Resources (Hyperlinked)
- K: Onsite Research, HJWA
- L: Hyperlinks and Acronyms
- M: CDFG Response to Public Comments

LIST OF FIGURES

Figure II-a. Regional Location, HJWA.....	II-3
Figure II-b. Parcel Map and Property Boundaries, Lassen and Sierra Counties, HJWA	II-6
Figure II-c. Panorama of Long Valley/Honey Lake Basin Watershed	II-10
Figure II-d. Distribution of Major Soil Types, HJWA.....	II-12
Figure II-e. Monthly Average Stream Flows, Long Valley Creek, USGS Gage 10354000, 1989-1994	II-16
Figure III-a. Plant Community Types, HJWA	III-5
Figure IV-a. Sagebrush Bird Focal Species Identified in the Sagebrush Bird Conservation Plan and Potentially Occuring Within the HJWA	IV-28
Figure IV-b. Riparin Bird Focal Species Identified in the Riparian Bird Conservation Plan and Potentially Occuring Within the HJWA	IV-29

LIST OF TABLES

Table II-a. Acquisition History	II-4
Table II-b. Soil Types by Proportional Extent.....	II-13
Table II-c. Monthly Climate Summary, Stead, Nevada, 1985-2007.....	II-17
Table II-d. Well Locations On or Near the HJWA.....	II-20
Table II-e. Archaeological Phases of the Eastern Sierra Nevada/Western Great Basin.....	II-22
Table II-f. Patented Lands at the HJWA.....	II-26
Table II-g. Known Archaeological Sites on the HJWA	II-29
Table II-h. Archaeological Sites Within a Half Mile of the HJWA	II-30
Table III-a. Crosswalk of Plant Community Types, HJWA.....	III-4
Table III-b. Legally Protected Plant Species with the Potential to Occur in the Vicinity of the HJWA, Lassen and Sierra Counties, California	III-18
Table III-c. Locations of CNDBB Occurrence Records for CNPS List 1 and 2 Plant Species on, or Immediately Adjacent to, the HJWA	III-19
Table III-d. Special Status Wildlife Species with the Potential to Occur in the Vicinity of the HJWA	III-23
Table IV-a. Crosswalk of Biological Elements and Plant Communities at the HJWA.....	IV-4
Table V-a. Estimated Annual Labor Cost.....	.V-3
Table V-b. Additional Equipment NeedsV-3
Table V-c. Summary of Staffing Required to Implement the HJWA LMPV-7

Acknowledgements

The California Department of Fish and Game prepared this update to the Hallelujah Junction Wildlife Area land management plan (HJWA LMP) with assistance from Sustain Environmental Inc. (SEI) and its affiliates. The department provided overall guidance for the planning process and was responsible for all decisions about the content of the plan.

SEI, under contract to the department, provided technical and scientific expertise, and was responsible for most administrative aspects of the plan, including preparation and production of the draft LMP. The Geographic Information Center at California State University, Chico provided geographic information system support, compiled the spatial data and produced the aerial images and preliminary maps. Dr. Roy Buck of EcoSystems West Consulting conducted plant community mapping, compiled the plant species lists, and prepared the botanical resource report. Cultural resource specialist Scott Baxter of Past Forward Inc. conducted literature and database reviews and field surveys to compile the cultural history of the Wildlife Area.

SEI is especially thankful for the assistance of Jim Lidberg, CDFG's area manager (retired), and Jan Dawson, HJWA's on-site manager, for providing access and critical information regarding management of the Wildlife Area. The Lahontan Audubon Society provided bird species records for Long Valley and Peavine Peak. Dr. William Bowen graciously provided us with several mosaic satellite-view aerial images that demonstrate the complex geographical setting of the Hallelujah Junction Wildlife Area. Ron Wolf granted us permission to use his exceptional photographs of several special-status species, helping to bring life to the rich natural heritage of the region. We are also grateful to the many photographers who contribute their work to the science and creative commons in an effort to expand human knowledge, understanding and appreciation of our world. We used many photographs for this purpose.

Finally, we are indebted to Kate Kane for embedding, reviewing, reactivating and resurrecting the numerous hyperlinks in this land management plan. Our goal was to provide a living document that would retain its usefulness over time for adaptive management purposes. While these hyperlinks were once all alive and well, the dynamic nature of the Web and the vagaries of software programs are likely to "endanger" at least a few. We have included a list of hyperlinks in Appendix L to help preserve as much of the active content as possible.
